Care Without Coverage Dec 18 2021 Many Americans believe that people who lack health insurance somehow get the care they really need. Care Without Coverage examines the real consequences for adults who lack health insurance. The study presents findings in the areas of prevention and screening, cancer, chronic illness, hospital-based care, and general health status. The committee looked at the consequences of being uninsured for people suffering from cancer, diabetes, HIV infection and AIDS, heart and kidney disease, mental illness, traumatic injuries, and heart attacks. It focused on the roughly 30 million-one in seven-working-age Americans without health insurance. This group does not include the population over 65 that is covered by Medicare or the nearly 10 million children who are uninsured in this country. The main findings of the report are that working-age Americans without health insurance are more likely to receive too little medical care and receive it too late; be sicker and die sooner; and receive poorer care when they are in the hospital, even for acute situations like a motor vehicle crash.

Medical Practice Guide to Erisa: Employee Retirement Income Security ACT Aug 14 2021 New book helps medical practices use the secrets within the ERISA regulations to their benefit and an increase in practice profitability. The Federal law ERISA (Employee Retirement Income Security Act) helps the majority of medical practices make carriers pay on claims that are now being denied, delayed and recouped. A small percentage of practices understand how ERISA works -- yet with this new book, ERISA could possibly become a practice's best friend! ERISA is complex and most medical practices "Don't know what they don't know when it comes to dealing with ERISA!" Practices are in the dark in understanding how to protect their employer's rights in collecting the monies owed them. All practices have problems with timely filing denials and refund requests, and this book provides simple guidance on how to use ERISA and make it work for the practice's best interest. Insurance carriers, third-party payers, fiduciaries, and health plans are, quite often, not paying the way they should -- or they are not playing fair with providers. Most providers do not understand the laws regarding payment. Do you realize that most of the claims that you file are likely to be ERISA claims? Do you know how to stop carriers from recouping on claims unfairly? Do you understand that many parts of the contracts that your providers have signed are invalid? Using this book will allow the reader to not only capture the funds on thousands of dollars that the carriers are now unfairly denying, but will empower the reader to stop the unfair recoupments, illegal timely filing and improper appeal periods that carriers mistakenly quote to physicians and hospital offices. The authors map out the smart but ingeniously simple tactics that practices can use to force insurance carriers to honor their responsibilities on the

policies owned by patients -- and to convince the carriers to adhere to what the policies actually require them to cover. This new book describes an

Ten Questions - The Insider's Guide to Saving Money on Auto Insurance Jan 31 2023 How much do you pay for your auto insurance? If you are reading this, the answer is most likely "too much!" You are looking for information that will help you save your hard-earned dollars, and you have found it. *Ten Questions* has been completely updated, revised, and expanded for 2012. It has also been reformatted for the Kindle at last, and the most effective way to use the guide is to own both the ebook and paperback versions. *Ten Questions* is not a book for "dummies," but it is an easy to use, half-hour read, specifically designed to help save you money. It is a comprehensive and detailed explanation of the underwriting process involved in determining the amount of premium you pay. The facts and clear examples included in the guide are based on my years of experience as a top-rated Sales Agent, and the thousands of auto insurance policies I personally have sold. Chapter One, "Risk" will help you understand what factors are used to determine your rating "tier," and how to improve them. The amount of premium you pay is determined by the amount of "risk" you are seen to represent. Much of that determination is made through your answers to a series of questions you will be asked, either online, or in person by an agent. These are the "Ten Questions" referred to in the title. Chapter Two, "Discounts" contains a detailed description of nearly every available auto insurance discount, and how to obtain them. A single 5% discount that you have been missing each policy term is costing you far more than this guide will. You will also gain the knowledge that you will need to progressively lower

your rates over time. Chapter Three, "Coverages" is a comprehensive explanation of nearly every available auto insurance coverage, including what each one does, (and does not do) for you, and how to determine the proper balance of cost versus benefit when choosing them. When you finish reading it, you will know more about auto insurance than most agents do. Ten Questions isn't about getting the cheapest policy at the cheapest price: It's about getting the best policy at the best price. Chapter Four, "Sample Quote Process," is your ultimate weapon in getting your new policy, because it details an actual phone quote in real time, along with the "correct" answers to the "Ten Questions." Knowledge is power, and this guide is a very powerful tool that you will be able to use as long as you are driving and insuring vehicles. Advanced Topics is new for 2012, and this section includes "Youthful Driver Strategies," and "State Specific Information," such as a layman's explanation of so-called "No-Fault" coverages, and "Full," versus "Limited" Tort. The Appendix contains all the technical terms that are used in the guide, to help you understand the "trade talk" in the auto insurance industry. This guide will save you money in several ways, including: It will help you find and qualify for discounts. It will show you how to improve your rating tier, and lower your "base rate." It will help you allocate your premium dollars more effectively, so that you get the best coverage at the best price. Find out what the insurance companies don't want you to know, like the fact that you can switch carriers any time you want, as often as you want. You do not have to wait until your current policy renews in order to do so. Learn the answers to the Ten Questions today, and get a better policy for less money, tomorrow.
