Terence Conran has always believed that objects - and surroundings - that are plain, simple and useful are the key to easy living. By being practical and performing well over time, they are as much the antidote to superficial styling as they are to the shoddy and second-rate. Applied to the home as a whole, this discerning approach results in interiors that are effortlessly stylish, confident and timeless, with plenty of room for the expression of personal taste. Plain Simple Useful is organized according to the main activities that take place at home. The book also features iconic examples of classic designs that will enhance any home, as well as a peek behind the closed doors of those well-ordered cupboards, larders and other stowing spaces that contribute so much to easy living. to the best the world has to offer. What would happen if society was run by women? In Herland Charlotte Perkins Gilman imagines the result. When three American men discover a community of women, living in perfect isolation in the Amazon, they decide there simply must be men somewhere. How could these women survive without man's knowledge, experience and strength, not to mention reproductive power? But what they have found is a civilisation free from disease, poverty and the weight of tradition. All alone, the women have created a society of calm and prosperity, a feminist utopia that dares to threaten the very concept of male superiority. 'The Yellow Wallpaper', by Charlotte Perkins Gilman, is a short story first published in January 1892. The psychological thriller by the renowned US women's rights writer and campaigner is an autobiographical-inspired novella based upon her own experience of severe postnatal depression, leading to post-natal psychosis. At the time, women with PND (known in America as postpartum depression) were seen as hysterical and were often dismissed by doctors who overlooked treatment options through lack of understanding of the condition. In Perkins' short story, written tellingly from the first-person perspective, the nameless female protagonist is forced to sleep in an attic with yellow wallpaper and is driven mad by her enforced imprisonment following the birth of her first

child. The book describes in detail how she sees imagined beings and ghostly sightings in the house. Disturbing in its nature yet utterly realistic to the heroine, the protagonist offers a diary-style narrative detailing her experience as a new mother suffering with severe mental illness: "I don't know why I should write this. I don't want to. I don't feel able. And I know John would think it absurd. But I must say what I feel and think in some way—it is such a relief! But the effort is getting to be greater than the relief." Evoking gothic themes of Charlotte Bronte's 'Jane Eyre', in both Jane Eyre's own tortuous and notorious Red Room and Bertha Mason's confinement in her loft prison, the book was made into a film in 2011 – directed by Logan Thomas and starring Aric Cushing and Juliet Landau. Charlotte Perkins Gilman, also known as Charlotte Perkins Stetson, was born on 3rd July 1860 in Connecticut, USA. Her early family life was troubled, with her father abandoning his wife and family; a move which strongly influenced her feminist political leanings and advocator of women's rights. After jobs as a tutor and painter, Perkins – a self-declared humanist and 'tom boy' – began to work as a writer of short stories, novels, non-fiction pieces and poetry. Her best known work is her semi-autobiographical short story, inspired by her post-natal depression, entitled 'The Yellow Wallpaper' which was published in 1892 and made into a film in 2011. A member of the American National

Women's Hall of Fame, Charlotte Perkins Gilman was a strong believer that "the domestic environment oppressed women through the patriarchal beliefs upheld by society". A believer in euthanasia, she was diagnosed with incurable breast cancer in January 1932 and chose to take her own life in August 1935, writing in her suicide note that she "chose chloroform over cancer".

Along the way, Farris demonstrates how to marry waveforms with photographic images to construct beautiful symmetry patterns as he gradually familiarizes you with more advanced mathematics, including group theory, functional analysis, and partial differential equations. As you progress through the book, you'll learn how to create breathtaking art images of your own.
