[Lost and Found](#) Jul 12 2021 Ever since his classic debut, *The Tar-Aiym Krang*, the first of the wildly successful Pip and Flinx adventures, New York Times bestselling author Alan Dean Foster has captivated readers around the world. Now this writer of bold imagination and stunning originality has created an electrifying space epic set in a universe at once strangely familiar and starkly terrifying. Familiar because the universe is ours; terrifying because the human condition might soon be. . . . Not so long ago Marcus Walker was just another young commodities trader in Chicago, working hard and playing harder. But that's all in the past, part of a life half forgotten—a reality that vanished when he was attacked while camping and tossed aboard a starship bound for deep space. Desperately, Walker searches for explanations, only to realize he's trapped in a horrifying nightmare that is all too real. Instead of being a rich hotshot at the top of the food chain, Walker discovers he's just another amusing novelty, part of a cargo of "cute" aliens from primitive planets—destined to be sold as pets to highly advanced populations in "civilized" regions of the galaxy. Even if he weren't constantly watched by his captors, Walker has few options. After all, there is no escape from a speeding starship. Another man might resign himself to the inevitable and hope to be sold to a kindly owner, but not Walker. This former college football star has plenty of American ingenuity and no intention of admitting defeat, now or ever. In fact, he's only just begun to fight. The adventure will continue with two more novels

Ships of the Line Jul 24 2022 In celebration of one of science fiction's most beloved franchises, an updated edition of the acclaimed Ships of the Line hardcover collection. They dared to risk it all in a skiff of reeds or leather, on a ship of wood or steel, knowing the only thing between them and certain death was their ship. To explore, to seek out what lay beyond the close and comfortable, every explorer had to embrace danger. And as they did so, what arose was a mystical bond, a passion for the ships that carried them. From the very first time humans dared to warp the fabric of space, escaping from the ashes of the third World War, they also created ships. These vessels have become the icons of mankind's desire to rise above the everyday, to seek out and make the unknown known. And these ships that travel the stellar seas have stirred the same passions as the ones that floated in the oceans. While every captain has wished that their starship could be outfitted in the same manner as the sailing ship H.M.S.

Beagle—without weapons—that proved untenable. From the start, Starfleet realized that each vessel, due to the limited range of the early warp engines, must be able to stand alone against any attack. Thus arose the idea, taken from the days of wooden sailing ships, that every Starfleet vessel must stand as a ship of the line. Through the actions of their captains and crews, countless starships have taken on that role. Here we remember some of those ships and their heroic crews. In celebration of one of science fiction's most beloved franchises, this updated edition of the acclaimed Ships of the Line hardcover collection now includes dozens of additional images brought together for the first time in book format—spectacular renderings featured in the highly successful Star Trek: Ships of the Line calendar series. With text by Star Trek's own Michael Okuda, the story of each of these valiant starships now comes to life. ™, ®, & © 2014 CBS Studios, Inc. Star Watch takes the bait, ordering Captain Maddox to find the lost planet holding the ancient technology. It's a particularly cinematic experience of war, Full Metal Jacket meets *Edge of Tomorrow*.” —The New York Times From the Hugo Award-winning author of *The Stars Are Legion* comes a science fiction thriller about a futuristic war during which soldiers are broken down into light in order to get them to the front lines on Mars. Is Dietz really experiencing the war differently, or is it combat madness? Trying to untangle memory from mission brief and survive with sanity intact, Dietz is ready to become a hero—or maybe a villain; in war it's hard to tell the difference.

When renowned archeologist Gav Gendin finds an Ancient starship, and a stasis chamber with a living member of the extinct alien race inside, he knows something strange is going on. Visions and dreams aren't the normal way archeologists uncover artifacts, but that's what guided him to the Ancient ship. The discovery should be the greatest triumph of his career. Instead, it ends in disaster and leads to his son, Siv, being placed in cryogenic sleep. A century later, Siv wakes to a world in decline, a world where you do what you must to survive. With the help of Silky, his father's old neural-interfacing AI companion, Siv becomes the best procurement specialist on the planet. But his services belong to the criminal Shadowslip Guild who owns him. After a job goes sideways in the worst way possible, the last thing Siv expects is to be offered his freedom. But there's a catch. His target is so hot that rival criminal guilds, foreign governments, and religious extremists will risk war to get it. The Outworld Ranger series packs all the action and sci-fi fun of the stories that inspired it: Star Wars, The Fifth Element, and Guardians of the Galaxy. It has sentient AI's, alien mysteries, starship battles, quirky robots, and a space messiah. Also in the Benevolence Universe Forbidden System (Fall of the Benevolence Book 1)

Darkfever Jun 30 2020 MacKayla Lane's life is good. She has great friends, a decent job, and a car that breaks down only every other week or so. In other words, she's your perfectly ordinary twenty-first-century woman. Or so she thinks . . . until something extraordinary happens. When her sister is murdered, leaving a single clue to her death—a cryptic message on Mac's cell phone—Mac journeys to Ireland in search of answers. The quest to find her sister's killer draws her into a shadowy realm where nothing is as it seems, where good and evil wear the same treacherously seductive mask. She is soon faced with an even greater challenge: staying alive long enough to learn how to handle a power she had no idea she possessed—a gift that allows her to see beyond the world of man, into the dangerous realm of the Fae. . . . As Mac delves deeper into the mystery of her sister's death, her every move is shadowed by the dark, mysterious Jericho, a man with no past and only mockery for a future. As she begins to close in on the truth, the ruthless Vlane—an alpha Fae who makes sex an addiction for human women—closes in on her. And as the boundary between worlds begins to crumble, Mac's true mission becomes clear: find the elusive Sinsar Dubh before someone else claims the all-powerful Dark Book—because whoever gets to it first holds nothing less than complete control of the very fabric of both worlds in their hands. . . . The Sirens of Titan Nov 03 2020 "[Kurt Vonnegut's] best book . . . He dares not only ask the ultimate question about the meaning of life, but to answer it."—Esquire Nominated as one of America's best-loved novels by PBS's The Great American Read The Sirens of Titan is an outrageous romp through space, time, and morality. The richest, most depraved man on Earth, Malachi Constant, is offered a chance to take a space journey to distant worlds with a beautiful woman at his side. Of course there's a catch to the invitation—and a prophetic vision about the purpose of human life that only Vonnegut has the courage to tell. "Reading Vonnegut is addictive!"—Commonweal
